1 Abstract

This detailed report meticulously examines and compares the operational frameworks of two prominent motorcycle manufacturers, **TVS Motors and Hero MotoCorp**, within the diverse landscape of the International automotive sector. Through a thorough exploration, the report thoroughly scrutinizes critical components such as organizational structures, employee demographics, and human resource management strategies employed by both companies. Delving deep into the intricacies of their recruitment procedures, training initiatives, and performance assessment methodologies, it sheds light on the intricacies that drive the success of these industry giants.

Moreover, the report elaborates on the regulatory frameworks guiding employee behavior within both organizations, while also highlighting the pivotal role played by industrial psychologists in promoting a positive work environment and enhancing overall employee well-being. Furthermore, it underscores the strategic measures undertaken by each company to cultivate career progression opportunities that ensure sustained growth, longevity, and high levels of employee contentment.

Finally, the report provides an insightful overview of the pivotal milestones and notable accomplishments that have defined the evolutionary paths of TVS Motors and Hero MotoCorp, illustrating the profound impacts these achievements have had on not only their individual trajectories but also on the broader automotive industry as a whole.

2 Company

2.1 TVS Motors

Company Name: TVS Motors

TVS stands for Thirukkurungudi Vengaram Sundram, which is the name of the founder of the group.

Type of Company: Large scale, 2,3 wheeler manufacturing

TVS Motor Company Limited (TVSM) [1] is a globally recognized large-scale manufacturer of two and three-wheelers, operating in over 80 countries. The company ranks as the fourth-largest two-wheeler manufacturer in the world, with a diverse product range that includes scooters, motorcycles, mopeds, and electric vehicles. TVS is considered a large-scale company for several reasons:

1. **Global Reach:** With a presence in more than 80 countries and state-of-the-art manufacturing facilities in India and Indonesia, TVSM serves a large international customer base.
2. **High Production and Sales:** In FY 2023-24, TVS Motor achieved sales of over 4 million two-wheelers, which marks a significant scale of production.
3. **Revenue:** The company reported a revenue of Rs. 31,925 crore in FY 2023-24, reflecting its large market presence and financial strength.
4. **R & D and Innovation:** TVS invests heavily in research and development, with a focus on future mobility solutions such as electric vehicles, evidenced by its innovative product lineup like the TVS iQube and the recently launched TVS X.
5. **Sustainability Initiatives:** TVSM is also committed to sustainability, with 93% of its energy requirements met through renewable sources.

Exports:

TVS Motor Company [1] has established a robust global presence, exporting its two and three-wheelers to over 80 countries across Asia, Africa, Latin America, and Europe. The company has strategically expanded its international footprint, offering a range of products, including premium motorcycles and electric vehicles, such as the TVS Apache and TVS iQube. In FY 2023-24, TVS exported close to 0.89 million two-wheelers, demonstrating its resilience in global markets despite challenges like economic slowdowns in specific regions. With its entry into European markets through partnerships in France

and Italy, TVS continues to strengthen its international distribution network and plans further expansion into select EU markets. Its growing focus on electric vehicles is set to drive future export growth, aligning with global trends towards sustainable mobility.

Difference in Exports:

There are slight differences in exports based on the surrounding conditions of the country and based on the Government intervention of that country [2]. There are some products which are extensively sold in some countries but barely sold in others based on the usage of that vehicle.

Products sold in Europe and in India are slightly different considering that Europe has a freezing cold period, hence the coolant used in the radiators of the vehicles are mixed with an antifreeze solution which is not done in India. Similarly, the famous TVS Auto (three wheeler) is extensively sold in India but barely sold in Europe.

2.2 Hero MotoCorp

Company Name: Hero MotoCorp

Type of Company: Large scale, 2 wheeler manufacturing

Hero MotoCorp is a large-scale company, as indicated by several factors across its reports:

1. **World's Largest Two-Wheeler Manufacturer:** Hero MotoCorp has held the title of the world's largest two-wheeler manufacturer for 23 consecutive years, producing motorcycles and scooters. It has sold over 116 million units globally [3] [4].
2. **Global Presence:** The company has a widespread presence, with operations in 47 international markets and manufacturing plants across eight locations in India and other countries such as Bangladesh and Colombia [4].
3. **Scale of Operations:** Hero MotoCorp's national operations span 36 states, and it serves a significant number of customers across the globe. Its vast scale is reflected in both the volume of vehicles produced (over 100 million) and the number of employees and workers (around 30,000) [4].
4. **Financial Performance:** With revenue crossing Rs. 33,805.65 crore and net worth reaching Rs. 16,705.09 crore, Hero MotoCorp's financial scale underlines its large corporate status [4].

These aspects demonstrate that Hero MotoCorp is a large-scale company, due to its global market leadership, operational scale, financial strength, and widespread geographical reach.

Exports:

Hero MotoCorp's export operations are an essential part of its global presence, contributing to 3.4% of its total turnover [3]. The company serves 47 international markets across regions including Asia, Central and Latin America, Africa, and the Middle East[3]. With manufacturing units outside India, such as in Bangladesh and Colombia, Hero MotoCorp continues to expand its international footprint. Its strategy for growth includes the export of both motorcycles and scooters, catering to diverse customer needs worldwide. Despite a relatively smaller contribution to its total revenue from exports, Hero MotoCorp is actively increasing its presence in international markets, with significant expansion plans in electric vehicle segments[3][4].

Difference in Exports:

This is similar to TVS Motors, the changes only occur due to circumstances like the surrounding environment, Government intervention, commercial profits based on product, raw material availability.

3 Profile Details

3.1 TVS Motors' major players

TVS Motor Company is led by a highly experienced and diverse leadership team that plays a pivotal role in driving its success. Key figures include:

Owner: Venu Srinivasan [5]

CEO: K. N. Radhakrishnan

Director of Finance/CFO: K. Gopala Desikan

Sales and Marketing: Saurab Kapoor

Director/Board Member: Sudarshan Venu

Chairman: Ralf Speth

This leadership team is supported by a dynamic Board of Directors, which includes independent directors like Shailesh Haribhakti, Dr. Deepali Pant Joshi, and B. Sriram, who contribute their expertise in governance, finance, and industry knowledge. Together, these major players are shaping the future of TVS Motors, with a clear focus on innovation, sustainability, and global growth[5].

3.2 Hero MotoCorp major players

Hero MotoCorp's major players include key individuals responsible for guiding the company's strategy, innovation, and operations.

Owner: Dr. Pawan Munjal [6]

CEO: Niranjan Gupta

Director of Finance/CFO: Vivek Anand

Chief Tech/Sci/R&D Officer: Reema Jain

Compliance Officer: Dhiraj Kapoor

Chief Operating Officer: Michael Clarke

This strong leadership team is integral to Hero MotoCorp's success in maintaining its market position and driving sustainable growth.

4 Employees

4.1 TVS Motors employee force and diversity

TVS Motor Company is committed to fostering a diverse and inclusive workforce, reflecting its core values and corporate culture. As of the latest reporting, the company employs over 25,000 people across its operations. Notably, women represent approximately 12% [1] of the overall workforce, which highlights TVS's commitment to promoting gender diversity in a traditionally male-dominated industry. The company has received accolades for its efforts in creating a supportive work environment, being recognized as one of the "Best Companies for Women" in India.

TVS Motor also prioritizes inclusivity by ensuring equal opportunities for all employees, including Persons with Disabilities (PwDs), who make up about 2% of the workforce. The company implements various initiatives aimed at enhancing workplace diversity, such as on-campus childcare facilities, industry-leading maternity and paternity policies, and flexible working hours. These measures underscore TVS's dedication to creating an equitable workplace that values diverse perspectives and fosters an environment where all employees can thrive.

The detailed counts are found below:

(Employees are Skilled and Workers are unskilled)

Sl. No	Particulars	Total (A)	Male		Female	
			No. (B)	% (B/A)	No. (C)	% (C/A)
EMPLOYEES						
1.	Permanent (D)	4129	3579	86.68	550	13.32
2.	Other than Permanent (E)	256	221	86.33	35	13.67
3.	Total employees (D + E)	4385	3800	86.65	585	13.35
WORKERS						
4.	Permanent (F)	1851	1850	99.94	1	0.06
5.	Other than Permanent (G)	10003	8985	89.82	1018	10.18
6.	Total workers (F + G)	11854	10835	91.40	1019	8.60

4.2 Hero MotoCorp employee force and diversity

Hero MotoCorp employs a total of approximately 30,000 individuals, comprising both permanent employees and workers[3][4]. The breakdown shows that there are about 4,534 permanent employees and 25,404 workers, with a significant representation of male employees (approximately 90.32% of permanent employees and 91.58% of workers).

In terms of diversity, the company is committed to promoting gender inclusion within its workforce. Currently, women represent about 9.68% of permanent employees and 8.42% of workers[4]. Hero MotoCorp has set a goal to increase female representation to 30% by 2030, reflecting its dedication to enhancing diversity and inclusion across all levels of the organization[3]. Additionally, the company actively engages in initiatives aimed at empowering women and supporting a diverse workplace, underscoring its commitment to fostering a more equitable work environment.

The details of the counts can be found below:

(Employees are Skilled and Workers are unskilled)

		Category	Total (A)
Category	Total (A)	Permanent workers

Permanent employees		Other than Permanent workers	
Male	4,095	Male	18,590
Female	439	Female	2,133
Total	4,534	Total	20,723

5 Recruitment and Selection

5.1 TVS Motors

TVS Motor's recruitment strategy aims to attract top talent in the automotive and technology sectors, ensuring a skilled and diverse workforce:

5.1.1 Recruitment

The company's recruitment process includes multiple stages such as initial screening, interviews, and assessments to evaluate candidate competencies and cultural fit. TVS Motor emphasizes diversity and inclusivity in hiring practices, promoting equal opportunities and a conducive work environment.

5.1.2 Talent Acquisition

In FY 2023-24, TVS Motor focused on talent acquisition to strengthen its capabilities in electric mobility and digital transformation. The recruitment drive targeted professionals with expertise in engineering, software development, data analytics, and automotive technology.

5.1.3 Career Development

Once on boarded, employees undergo comprehensive on boarding and training programs through the Institute of Quality and Leadership (IQL). Career development opportunities include cross-functional rotations, leadership training, and continuous learning initiatives to nurture talent and drive organizational growth.

5.2 Hero MotoCorp

5.2.1 Recruitment

Hero MotoCorp follows a structured recruitment process to attract a diverse range of candidates who align with the company's values and operational needs. The recruitment strategy emphasizes understanding the skills required for various roles and finding suitable candidates from diverse backgrounds. The process typically involves the following steps:

1. **Job Analysis and Description:** Before initiating recruitment, a thorough analysis of job roles is conducted. This includes defining job responsibilities, required qualifications, and desired competencies to ensure clarity in the recruitment process.
2. **Sourcing Candidates:** Hero MotoCorp utilizes various channels for sourcing candidates, including online job portals, campus recruitment drives, employee referrals,

and recruitment agencies. This multi-channel approach helps reach a wide audience and attract a diverse pool of talent.

3. **Initial Screening:** Resumes and applications are screened to shortlist candidates based on their qualifications and experience. This step ensures that only the most suitable candidates progress to the next stages of the selection process.

5.2.2 Talent Acquisition

Hero MotoCorp's talent acquisition process is focused on aligning the right candidates with the company's strategic goals and culture. Key elements of this process include:

1. **Interviews:** Shortlisted candidates undergo a series of interviews, which may include HR interviews, technical assessments, and managerial interviews. These interviews are designed to assess candidates' skills, cultural fit, and overall compatibility with the organization's values.
2. **Assessment Tests:** Depending on the role, candidates may be required to complete various assessment tests that evaluate their technical skills, problem-solving abilities, and behavioral competencies. This helps in making informed decisions about their suitability for the role.
3. **Reference Checks:** For final candidates, reference checks are conducted to verify their employment history and gather insights into their work ethic and performance from previous employers.

5.2.3 Selection

The selection process at Hero MotoCorp aims to ensure that the best candidates are chosen for the available positions. This involves:

1. **Final Interview:** Candidates who perform well in previous stages may be invited for a final interview with senior management or department heads. This step provides a platform to discuss expectations, career aspirations, and any remaining questions.
2. **Job Offer:** Successful candidates receive a formal job offer that includes details about their role, salary, benefits, and other relevant terms of employment. The HR team ensures that the offer is competitive and aligns with industry standards.
3. **Onboarding:** Once the candidate accepts the offer, Hero MotoCorp initiates the

onboarding process, which includes orientation sessions, training programs, and familiarization with company policies and culture. This ensures a smooth transition for new employees into their roles.

5.2.4 Career Development

Hero MotoCorp places significant emphasis on career development and employee growth. The company invests in various initiatives to support its employees in their professional journeys:

1. **Training and Development:** Ongoing training programs are offered to employees to enhance their skills and competencies. This includes technical training, leadership development, and soft skills training to prepare employees for future roles.
2. **Performance Management:** Regular performance appraisals are conducted to provide employees with feedback on their performance and identify areas for improvement. This helps in setting career goals and aligning individual aspirations with organizational objectives.
3. **Succession Planning:** Hero MotoCorp has a robust succession planning process to identify and develop high-potential employees for leadership positions. This ensures that the company has a pipeline of talent ready to step into key roles as they become available.
4. **Diversity and Inclusion Initiatives:** The company is committed to fostering a diverse and inclusive workplace. Programs aimed at promoting gender diversity and inclusion are integral to the recruitment and career development processes.

6 Training and Development

6.1 TVS

TVS Motor Company places a strong emphasis on the training and development of its employees, recognizing that a skilled and knowledgeable workforce is essential for driving innovation and maintaining competitive advantage in the automotive industry. The company employs a multi-faceted approach to employee development, offering a variety of training programs designed to enhance technical skills, leadership capabilities, and overall professional growth. Through initiatives such as the TVS Institute of Quality & Leadership (IQL), employees benefit from tailored learning experiences, continuous education, and opportunities for skill-building in emerging technologies, including electric vehicles, software, data analytics, and artificial intelligence.

Additionally, TVS Motor fosters a culture of continuous improvement by encouraging employees to participate in global partnerships, professional development programs, and innovative learning solutions, such as virtual reality (VR) and augmented reality (AR) training. This comprehensive training and development framework not only equips employees with the necessary competencies to excel in their roles but also aligns with TVS Motor's strategic objectives of driving excellence and sustainability in its operations.

They follow a set of principles[5][7]. They are:

P1: businesses should conduct and govern themselves with integrity, and in a manner that is ethical, transparent and accountable.

P2: businesses should provide goods and services in a manner that is sustainable and safe.

P3: businesses should respect and promote the well-being of all employees, including those in their value chains.

Segment	Total number of training and awareness programs held	Topics/principles covered under the training and its impact	% of persons in respective category covered by the awareness programs
Board of Directors	6	P1, P2, P6	100.00
Key Managerial Personnel	6	P1, P2, P6	100.00
Employees other than BoD and KMPs	167	Covering All principles	100.00
Workers	62	Covering All principles	100.00

6.2 Hero

Technical Training

The company offers specialized technical training programs that cover essential areas such as CNC programming, auto-gauging, hydraulics, pneumatics, and electrical drives.

Additionally, employees receive training in Integrated Management System (IMS) awareness, Total Productive Maintenance (TPM), and the Jishu Hozen (JH) and Kobetsu Kaizen (KK) pillars. These programs are designed to equip employees with the necessary technical expertise to excel in their roles across various segments of the workforce.

Behavioral Training

Hero MotoCorp also invests in behavioral training initiatives aimed at enhancing soft skills among its employees. These programs focus on nurturing workplace relationships, promoting assertive communication, and instilling the company's core values. Furthermore, sensitization programs covering topics such as the Prevention of Sexual Harassment (POSH), gender sensitization, unconscious bias, and adherence to the Code of Conduct are integral to fostering a respectful and inclusive workplace culture.

Functional Programs

In line with its commitment to continuous improvement, Hero MotoCorp provides functional training programs that enable employees to upskill their data analytical capabilities. This includes training in critical areas such as the 7 Quality Control (QC) tools, Advanced Excel, and Power BI, empowering the workforce to leverage data effectively for decision-making and operational excellence.

These initiatives reflect Hero MotoCorp's dedication to fostering a skilled, knowledgeable, and inclusive workforce that can adapt to the evolving demands of the industry.

Segment	Total number of training and awareness programmes held	Topics / principles covered under the training and its impact	%age of persons in respective category covered by the awareness programmes
Board of Directors	13	Covering all Principles	100
Key Managerial Personnel	13	Covering all Principles	100
Employees other than BoD and KMPs	42	Sustainability, human rights, health	32
Workers	-	-	-

Here is a summary of the overall training hours and money invested:

Total training hours: 11,18,505

Average training hours / employee: 32.93

Average spent on training and development per employee (includes staff and permanent workers): Rs 10,488

7 Performance evaluation

TVS:

Metrics: Business goal achievement, innovation, customer satisfaction.

Oversight: Nomination and Remuneration Committee ensures fairness in evaluations.

Feedback Mechanisms: Continuous feedback loops support employee development.

Hero:

Metrics: Business goal achievement, innovation, customer satisfaction.

Feedback Mechanisms: Continuous feedback loops support employee development.

Company does not follow 360 degree feedback method.

8 Rules and regulations

TVS and Hero: (Both follow similar rules and regulations)

Regulatory Compliance: ISO certifications (ISO 14001, ISO 45001) for environmental management and occupational health.

Ethical Practices: Code of Conduct guides integrity and accountability. (Most of the employee specific rules are found here.)

Environmental Stewardship: Emphasizes sustainability with renewable energy and eco-friendly practices.

Governance Framework: Board committees oversee compliance and corporate governance.

Community Engagement: CSR initiatives focus on education, healthcare, and environmental conservation.

9 Industrial psychologist

TVS:

- *Lakshmi Prabha A*
- HR Business Partner @ TVS Motor Company — Manager - HRD — HR Digital Transformation
- HR Professional with 10+ years of experience in Talent Acquisition, Performance Management System, HR Digital Transformation, Compensation & Benefits, and Employee Engagement

Hero:

- *Dr. Kamal Karamchandani*
- Expertise in business planning, strategic sales-marketing, channel management / development / productivity, CRM, multi-cultural diversity, manpower development, change management, coaching, behavioral guidance

10 Steps taken for career growth of the company

TVS:

- *Total Quality Management (TQM)*: Utilising digital and AI initiatives, the Company continuously enhances customer experience processes and improves forecasting accuracy at the front end.
- *Cost and Price Management*: The Company provides high-value offerings to consumers achieved through aggressive waste reduction and quality improvement strategies such as value engineering, modularity, lightweight, alternative materials, localisation, and process innovation.
- *Research and Development*: Investing in building world-class in-house skill sets in technology research, product design and development, an exclusive team of specialised engineers has been formed for in-house software development.
- *Digital and AI Technologies*: The Company considers Digital and AI as a key organisation-wide accountability area. Currently, it prioritises digitalising the Company's operations in customer experience, retail and service management, manufacturing and supply chain, New Product Introduction (NPI), and enterprise functions.

Hero:

- *Enterprise-wide Quality*: Robust quality management systems relentlessly pursue continuous improvement, ensuring quality is incorporated across all our products, processes, systems, and services. 100% of the facilities are ISO 9001 certified.
- *Quality Sensitisation and Awareness*: Initiative focus on developing the right mindset among all stakeholders, while providing opportunities for young talent to showcase innovative ideas and critical thinking to a wider organisational audience.
- *Supply Chain Excellence*: They consistently assist their supply chain partners in improving their quality processes by sharing their technical expertise. Their Supply Chain Partner Quality Manual lays down guidelines for effective functioning and establishes stringent checkpoints along product development and mass production stages.
- *Vehicle Recall Policy and Traceability*: Following the roll-out of the Vehicle Recall Policy by the Government of India in 2021, Hero MotoCorp swiftly developed a framework to manage and execute a mandatory vehicle recall as prescribed.

11 Milestones and Achievements

TVS:

- 1980: Great milestone in Indian automobile history. Country's first 2 seater 50cc moped TVS 50 launched.
- 1984: First mover. TVS becomes the first Indian Company to introduce 100cc Indo-Japanese motorcycles.
